Preface

As comprehensive strategic partners, ASEAN and China keep deepening practical cooperation in all fields. The year of 2021 marks the 30th Anniversary of ASEAN-China Dialogue Relations. Embracing the trend of the times, the two sides have promoted common development and progress, which jointly created the "East Asia Miracle", maintained the overall stability and economic growth of the region. Along with it, the two sides paved a path of good-neighborhood and win-win cooperation, propelling a historic leap forward in ASEAN-China relations.

Economic and trade cooperation is one of the highlights of ASEAN-China Cooperation. From 2010 to 2020 the value of trade between ASEAN countries and China increased from USD 292.94 billion to USD 685.08 billion. Cooperation between the two sides has continued to grow despite the impact of the COVID-19 pandemic. The year of 2020 witnessed the two sides became each other's largest trading partners for the first time, demonstrating great resilience and potential of development.

ASEAN-China Centre (ACC) is an inter-governmental organization co-founded by ten ASEAN Member States (AMS) and China. As a one-stop information and activities centre, ACC is committed to promoting friendly exchanges and practical cooperation between ASEAN and China in various fields including trade, investment, education, culture, tourism, and information and media. The Overview of ASEAN-China Trade aims to help readers get a glimpse of the growth and scale of ASEAN-China trade, product composition of import and export as well as the situation of ASEAN countries' foreign trade. In addition, the appendixes present detailed information on major import and export commodities in trade between China's local provinces, autonomous regions (excluding Taiwan, Hong Kong, and Macao) and ASEAN countries in recent

years. We hope this book could serve as a guidance to trade cooperation between enterprises of both sides.

My sincere thanks go to friends for your kind supports and assistance to us. ACC will continue to play a bridging role in promoting practical cooperation in the field of trade and investment so as to advance a sound and sustainable ASEAN-China relation.

I. Overview and Prospect of ASEAN-China Trade Development

1. Overview of Trade Development

Since the full establishment of China-ASEAN Free Trade Area (CAFTA), China's trade in goods with ASEAN has achieved rapid growth. From 2010 to 2020, the value of China's imports and exports with ASEAN grew from USD 292.94 billion to USD 685.08 billion, with an average annual growth rate of 8.9%, and its share of China's total trade rose from 9.9% to 14.7%. After the upgraded ASEAN-China Free Trade Agreements (ACFTA) came into effect, China's trade in goods with ASEAN started a new round of growth, and the two sides became each other's largest trading partners for the first time in 2020.

Growth appears in China's foreign trade with all ASEAN countries. China's foreign trade with Cambodia, Lao PDR, Myanmar and Vietnam maintained annually double-digit growth. Specifically, China's foreign trade with Cambodia grew from USD 1.44 billion to USD 9.55 billion, with an average annual growth rate of 20.8%; its foreign trade with Lao PDR increased from USD 1.09 billion to USD 3.57 billion, with an average annual growth rate of 12.6%; its foreign trade with Myanmar rose from USD 4.44 billion to USD 18.83 billion, with an average annual growth rate of 15.5%; its foreign trade with Vietnam went up from USD 30.09 billion to USD 192.17 billion, with an average annual growth rate of 20.4%.

Composition of ASEAN-China Trade continues to improve with a surge of share of high-tech products. In 2020, "processors and controllers (HS:854231)" became the Top 1 trade commodity, with foreign trade value of USD 66.63 billion, rising up 14.7% compared to 2019., with average growth rate of two consecutive years reaching 22.3%. In addition, the trade value of "other integrated circuits (HS:854239)" reached USD 15.28 billion, rising up 22.0% compared to 2019, with average growth rate of two consecutive years reaching 12.2%.

Trade cooperation between ASEAN countries and China's provinces, autonomous regions and municipalities were generally strengthened. In 2020, 22 out of 31 provinces' foreign trade with ASEAN countries kept growing. Guangdong Province ranked No 1 in foreign trade with ASEAN, with import and export value reaching USD 157.05 billion, and a year-on-year growth rate of 6.3%, accounting for 15.3% of its total foreign trade; Guizhou Province ranked No 1 in growth of foreign trade with ASEAN, with import and export value reaching USD 1.25 billion, and a year-on-year growth rate of 55.3%, accounting for 15.8% of its total foreign trade.

2. Prospect of ASEAN-China Trade

As the pace of China's opening up to the world continues to accelerate, China's

all-round cooperation with ASEAN has also been deepened. Both sides work together to seek regional peace and stability, promote regional development and prosperity, setting up a great example for Asia-Pacific cooperation. Looking in to the future, the prospect of ASEAN-China cooperation is promising.

Firstly, jointly build the high-quality the Belt and Road Initiative to carry out a series of mutually-benefit projects and benefit people of related countries. Secondly, strengthen cooperation against COVID-19, enhance building public health capacity, improve industrial matchmaking with regard to the new industrial situation triggered by the pandemic, and create more opportunities. Thirdly, as the Regional Comprehensive Economic Partnership Agreement (RCEP) advances smoothly, ASEAN and China will embrace broader cooperation space, it will not only lower the threshold of tariff preferences, but also greatly promote trade cooperation in the region, and stabilize and enhance industrial and supply chains of the region.

II. Scale and Composition of ASEAN-China Trade

1. Overview of ASEAN-China Import and Export Trade (2010-2020)
